Step 2: - Technology (ICT):

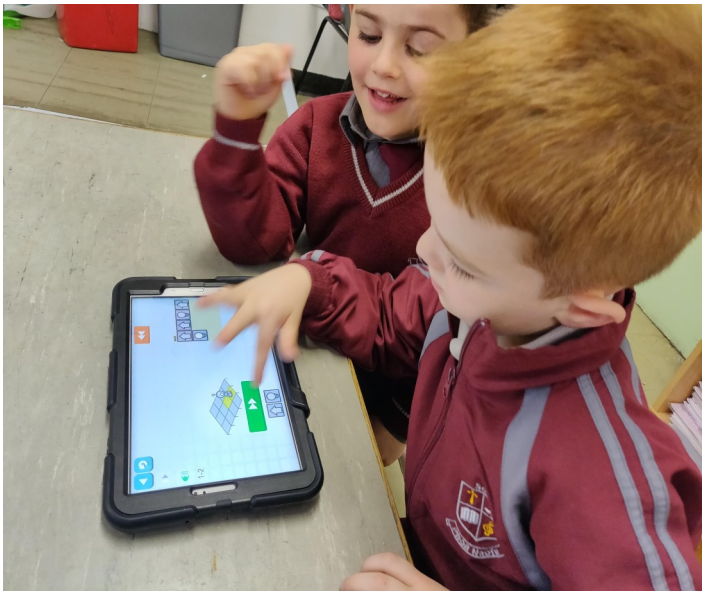
ICT activities have been undergoing in several classes in the school. These include; Lightbot Jr., Scratch Jr, BeeBots, Class Dojo, Lego Robotics and Mindstorms.

Here are some examples of Junior Infants working with 5th class on Lightbot Jr, Class Dojo, Scratch Jr. and Beebots.

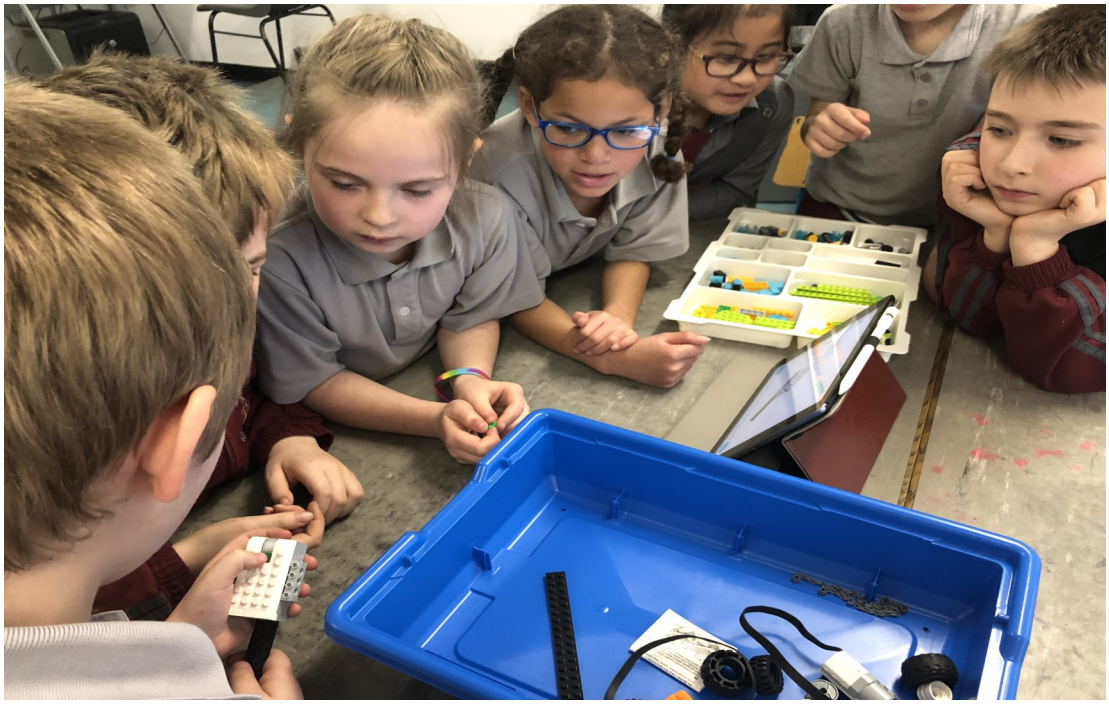
The older children work with younger children on a weekly basis, building on each week with new activities

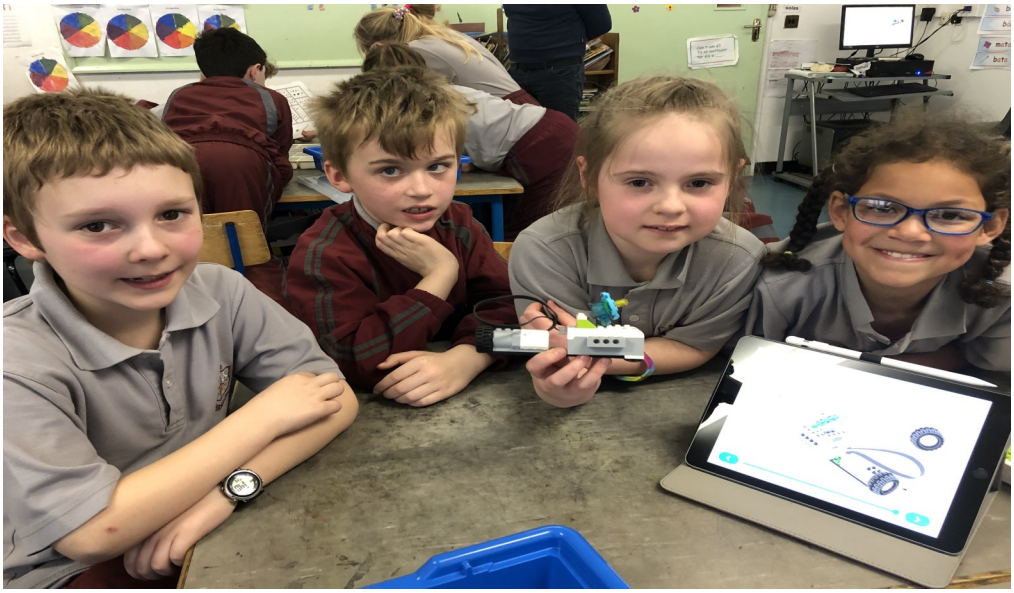
BeeBots with Junior Infants and 5th class:

Scratch Jr., Lightbot Jr, and Class Dojo.

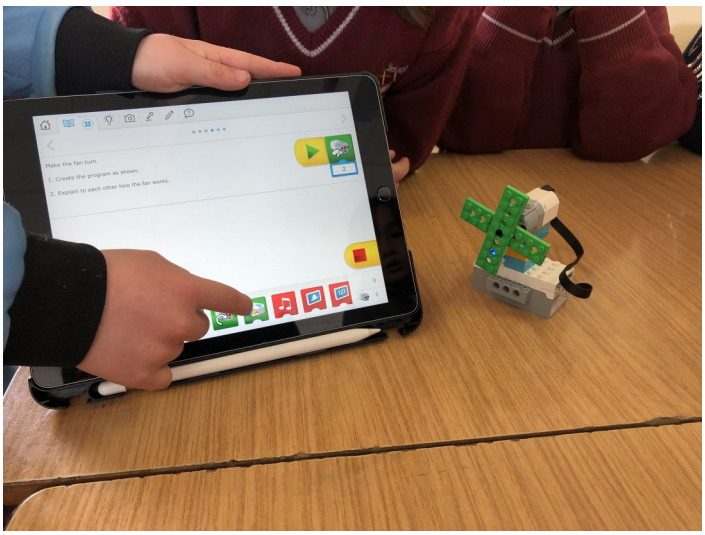


Lego We-Do in 1st and 2nd class was a great success!





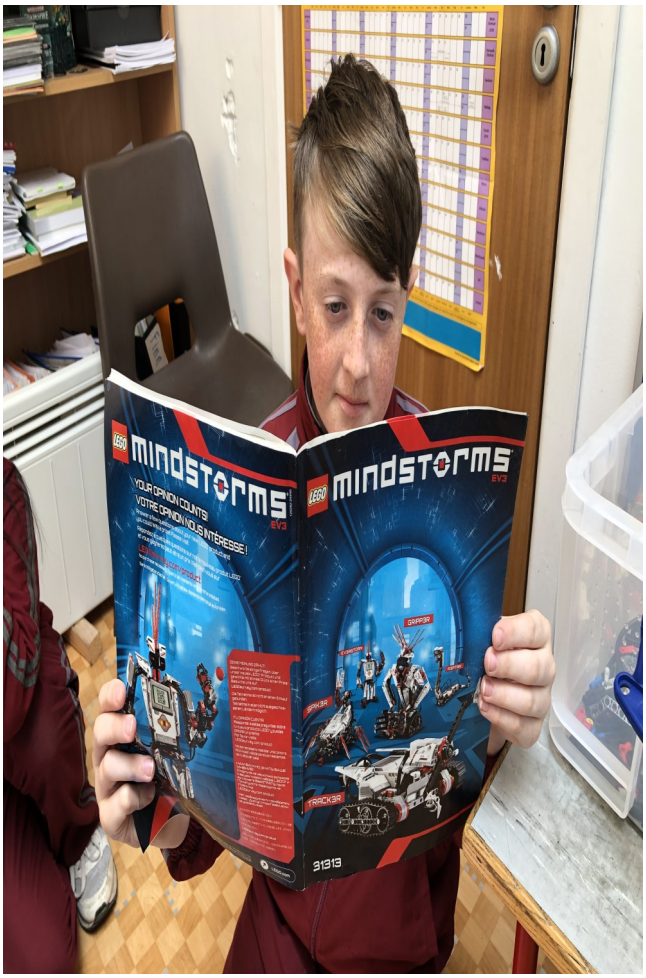
turday
nday

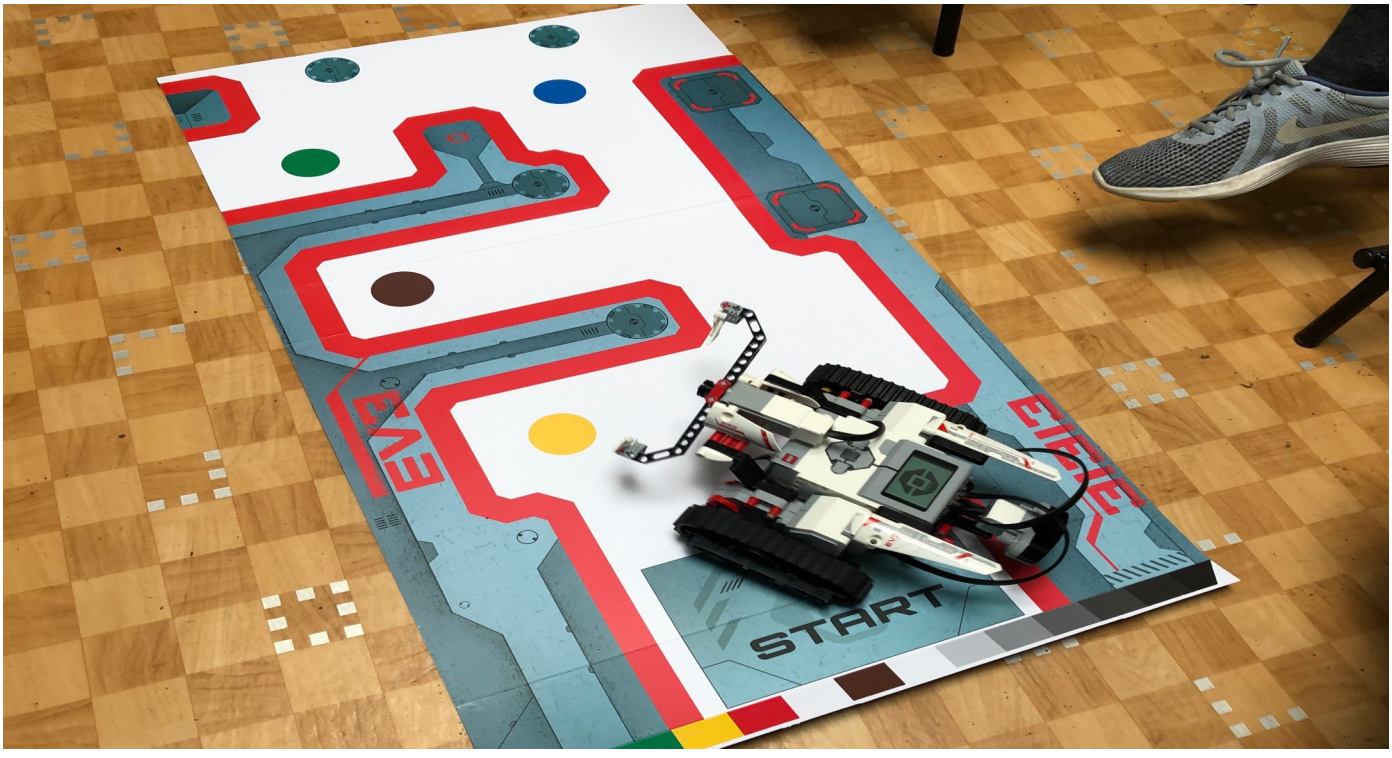


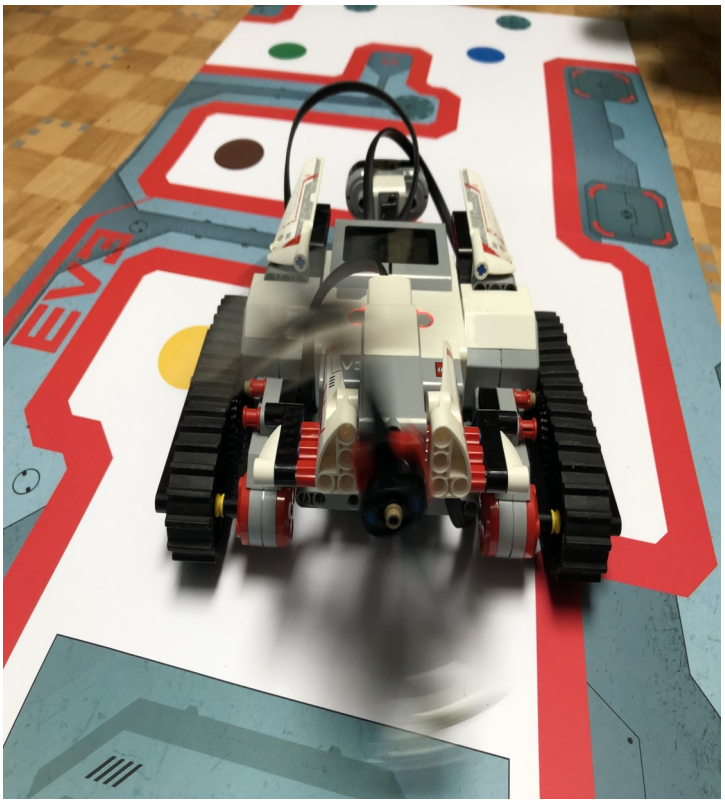
Make the fan turn.
1. Create the program as shown.
2. Explain to each other how the fan works.

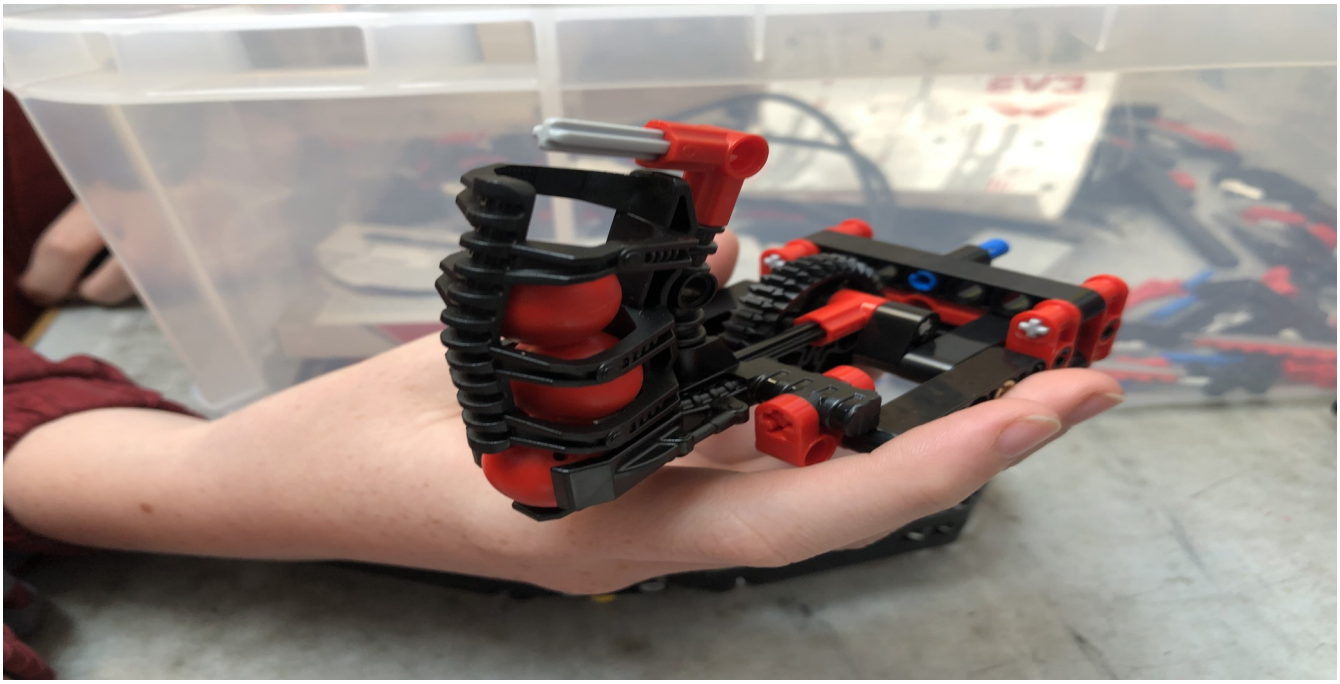
enjoy
include

6th class got to explore Mindstorms!









Monday 1st Staff Meeting to include School Plan subject to
TRACK3R_03 1
Connect your EV3 Brick and tap the download and run button in the upper right corner to run the program.
You can change how fast TRACK3R drives by changing the Power input on the Move Steering blocks.
LabVIEW
No EV3 Brick
